## Cadapult FM Space Utilization and Optimization

Space Utilization is a key factor in a company's goals in saving money through optimizing space use.
Cadapult FM software helps you achieve this by tying in with Badge Access systems and correlating that data with your space plans to give you a true and accurate picture of your space utilization at a desk, floor and building level on a daily, monthly, and yearly basis.

Space Utilization Report

Through a clear understanding of how your space is truly used you can reduce space use by consolidating staff and organize departments more efficiently
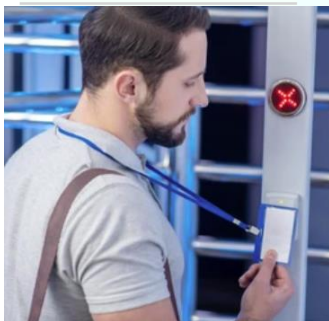

Tackle the hybrid workplace using powerful and easy to use space planning and reporting tools!

Assigned Spaces	Checked-In				Total					
Space Type -	OFFICE		WORKSTATION		Total					
Location	Count	Checked-In	Count	Checked-In	Count	Checked-In	Count	Checked-In	Space	Utilized(%)
⊟ Wilmington DE	136	42	355	82	491	124	491	124		25
⊟ 1500 Market Street	90	29	195	42	285	71	285	71		25
